

Ampacoll® Profix

Liquid adhesive

external
internal

- > Permanently elastic and tacky
- > Ideal for TPU products and many other, sometimes tricky surfaces
- > Resistance against condensation and run-off water
- > No primer necessary
- > Repositionable
- > Notched nozzle for a more even bead

Technical details	Value
Storage	frost-free, cool and dry
Working temperature	5 to + 35 °C
Temperature resistance	-40 to +90 °C
Ageing resistance	>20 years
Setting time	Two to three days
Solvents	solvent-free
Consumption	30–50 ml / m

*Conditions for the twenty-year premium warranty include registering the building object and the Ampack products used. In addition, our products must be used as part of a system. For further details, please see our General Warranty Conditions.

 **ISO 9001**
Swiss Research

Uses: Solvent-free, airtight, windtight, durable elastic liquid adhesive. Ideally suited for bonding TPU sheeting, connecting a membrane to the eaves flashing, bonding overlaps on façade sheeting, mounting façade sheeting on metal sections and connecting to building structures. The liquid adhesive sticks to many other, sometimes tricky surfaces such as PE, PP, EPDM, PVC, TPU and bitumen surfacing. It also levels off irregular surfaces on the building structure (bricks, stone, concrete, plaster, wood, MDF/OSB boards, etc.).
